Q: Component not rendering in react render function I have this react component in jsx format and i don't get any error but also the component is not rendering. I'm trying to learn react so please enlighten me where exactly i went wrong. import React, { Component } from'react'

---

```
const App = () => ( Hello World ) export
default App I tried to add render function too
but it's also not showing anything. A: You
need to import components as following in
your React App to render to DOM. import
React, { Component } from'react' import
App from './App' class App extends
Component { render() { return ( Hello World
) } } export default App
```

WASHINGTON — The secretive surveillance court has received a record number of requests for telephone records in the last two years, as the government continues its efforts to hunt for a terrorist hiding in the Muslim community following the Paris attacks and the attempted attacks in New York and elsewhere. This year, F.B.I. agents in Pittsburgh intercepted two encrypted communications, which they said they planned to analyze for clues about the identity of an active jihadist who had been living for months in the city. In its application, the F.B.I. sought to obtain the caller's telephone numbers, the telephone
