Important: Please remember that the Autocad version activated by the keygen has the following limitations: - 3D Drawing does not support - 3D objects are auto-converted in 2D - 3D text is auto-converted in 2D Help: The most important information can be found in the Help menu:

What's New in the AutoCAD?

Improved coordinate system: In previous versions, the user would enter coordinates into a drawing and then choose a coordinate system for them. In AutoCAD 2023, the coordinate system is the default. You can always choose to enter coordinates with a text box or a keyboard. Hover feedback tool: Lasso tools are used to select parts of the drawing. With a simple mouse-click, the user can create a rectangle, circle, polyline or polygon around a part of the drawing to mark it for later use. When the user hovers his mouse over the part of the drawing, it highlights with green and red. Lasso tools are used to select parts of the drawing.
